

# KANTI INDUSTRIES

---

*Complete solution for  
treatment of water and air*

**Manufacturer, Supplier and Exporter**

## INTRODUCTION

Commenced in the year 2005 we Kanti industries is one of the trustworthy conglomerates affianced in offering wide array of Ozone treatment systems for water and air, Water Treatment Plants, Oxygen and Nitrogen Gas Plants and UV Treatment System for the patrons. In the entire manufacturing process we use the best production machines to churn out the best product range for our clients. Our production unit is run by highly experienced task-specific professionals. To cater the exact figure we made this accessible in varied size and dimensions.

We possess a state-of-the-art design, manufacturing and service strength to cater the customized products at the clients end. The company uses the experiences of more than 15 years in the design and manufacturing of most modern Ozone treatment systems for water and air, Water Treatment Plants, Sewage Treatment Plants, Reverse Osmosis System, Pool Filter System, Industrial Sewage Treatment Plants, Oxygen and Nitrogen Gas Plants and UV Treatment System. Our plants are high in demand in the MARKET as it is highly reliable and easy to maintain and can be installed without any hassle. With the help of wide distribution of network we export our products in East Asia, Africa, North America, Middle East and Indian Subcontinent.

In addition to that we also intended to provide consultancy services to many companies to make available best solutions for their requirements. For the enhanced performances we have employed an expert panel of qualified engineers in developing innovative and economical products.

Under the valuable guidance of our mentor 'Mr. Rajiv Kaushik' we have achieved new milestones of success. His constant motivation and notable tutelage has helped us to set new benchmark in the domain. His vast industry experience, brilliant managerial skills and in-depth knowledge have enabled us to garner a wide client-base across the world and especially in the markets of Indian Subcontinent.

# PRODUCT RANGE.

- RO Plant : Upto 30,000 LPH capacity
- Ozonation System : upto 500 gm/hr
- UV Sytem : 1,00,000 LPH Ccapacity
- Gas Plants : upto 100 Nm<sup>3</sup>/hr
- Waste Water Treatment Plant : 500 KLD
- Water Filtration and Softening Plants : upto 50 m<sup>3</sup>/hr

# INDUSTRIES WE SERVE

Following industries use our water treatment plants:
